

JDW- Heard from Dave Wrone Sunday night. The 37 cartons had arrived and after a brief examination really excited them all. They are tickled and plan some sort of ceremony. I'm sure you will hear from them about it. Meanwhile on the juvenile front there is to be a concern for us. When Elizabeth was told they have a C30 little David said "We have a 60." To this Elizabeth added that they had a 90. Kids are great and those two are exceptional... Little David is fascinated by our pond, which he recalls well. But he does not understand that we do not fish it or eat the fish in it. He equates fish and ponds with fishing and eating.... Otherwise things going well. Received two boxes of FBU Dallas records of LHO files. Hardly what I should receive so the appeals have begun. After examining what I received of the JFK assassination files from Dallas I am able to specify an enormous amount of withholding, have and have appealed it and expect to obtain what I have specified is withheld. Perhaps most valuable is not the files but 40 linear feet of index cards existence of which has been held a close secret plus files on the books on the subject.

Best, HW 7/25/78
