

JDW- Hasty thanks for your 9/12 and enclosures, some of which have not been reported in any way around here. Skimmed heads during listening to assassins broadcast. They've just taken a 5-minute break to vote. ...Maybe I know enough about Wilcott story to be able to evaluate Hinckle, which continues to interest. These are helpful in other ways, although I've not read. One is pictures not used here. One is clearer pix. So thanks. I'll read later. I can do this ~~h~~ with half an ear on NOR, its commentary is that atrociously bad...Lil, who is in Frederick, is collecting more clips for you. ...I'd expected to see Dave by now. No recent word but thanks for telling me you sent Hinckle to him, saving ~~h~~ that much trouble. ...What is scheduled to follow when assassins resume is Nosenko. This can be very important for FOIA and appeals court reasons no time to go into now. I think that this court is looking for me to provide it with what I think I can see it reaching for in two recent CIA decisions, ~~MARKS~~ Ray and Marks, if the stories were used out there. This relates to what I alleged in CA 75-1448, the executive transcripts case. One transcript relates to Nosenko. HW 9/15/78
