

Don't know if these Deng interviews are syndicated so I'm sending to you. If you think Dave hasn't seen them please send to him. No need to return to us.

Haven't heard from him ~~p~~ or about his bible for a while so I suppose he's tied up with the beginning of the academic year. Or getting ready for it. It's begun locally, at Hood.

If I didn't tell you, a while back Art Kevin and his wife Jodi were here when they were in DC on their application for the remaining area FM license, for Vegas, classical music format. Jodi just wrote me about my barbecue recipe and my use of a dismop. She'd never heard of it. What the younger generation has missed! (They always had it too good, except politically.) Hope you liked it. If I forgot, the marinade improves with age.

Our best, HW 9/1/80
