MEMORANDUM

To: Howard Willens

From: Lloyd Weinreb LW

In the course of settling the Helsinki problem yesterday Dave Slawson inserted a reference to CE 2714 in footnote 480 of Appendix 13 and left a note that a memorandum is to be supplied by Wigren of CIA or by State to bear that exhibit number. Someone will have to check to be sure that the memorandum arrives and is printed in the volumes of the Report. (On the official listing of exhibits another document is now designated CE 2714. It has been withdrawn and will not be anywhere in the Report because it has not been cleared. The memorandum to which I refer above will replace it.)

The following footnotes in Appendix 13 contain cross-references to portions of the Report. I am told that some of the report is to be repaged. If so, then someone should check to be sure that the page references in the following footnotes are correct:

501	764
585 (delated)	87
841	101
700	161
792	219
1010	221
1011	253
1012	1102
1017	1124
1101	
1256	

I can be reached at home after 2:00 today and shall be in tomorrow, presumably to check galleys of the footnotes.
