Establishment publishing Company, confirmed by a telegram from Fiduciare Warner  
May 9, 1968 (see attached - telephone conversations tape recorded) I traveled  
to Europe seeking the information on which the ~~xxxxxx~~ book was based.

Details of the dates and meeting places of the trip to be given later.  
The information in the books was gathered through a combination of intelligence  
offices and personal contacts, the former, in France and England; the later, in the U.S.  
Sources of the materials in the book:

and other Whitehouse aides. Moynihan was given the task of  
investigating the Dallas Police Department and questioning  
some Secret servicemen immediately after the assassination  
by Robert Kennedy.

Police work before the assassination-

Winston C. Lawson, Secret Serviceman and Dallas advance man.

OPERATION CONCERNING MEMBERS OF THE PLOT:

a) French Intelligence Agents who have infiltrated the Oil Industry in Texas, and certain businesses in New York.

1 agent specifically has infiltrated the Schlumberger Oil Co. in Texas, the company with which George De Moreschildt has been connected.

1 agent working as a gigilo in Paris who slept with the wife of Lloyd Hilton Smith (an alcoholic) in her penthouse flat at the Maurice Hotel in 1954-55.

*(Hervé Patrick Lamarre Terrand)*  
1 agent, Lamarre, Hervé Terrand who knew both daughters of Lloyd Hilton Smith intimately (Sharon and Sandra). Lamarre was the editor and chief of a woman's magazine while working for the French Intelligence Agency and had many contacts in both the United States and Europe. Information about Roy Cohn was developed by Lamarre. Contact with Moynihan and all the other members of John Kennedy's staff was through Lamarre. He spent much time in Houston, Dallas, New York, and Washington.

1 agent working in Washington D.C. known to Phillippe.

1 agent working in Tokyo, Japan who had known Oswald in the time of his Marine Corps training with regard to U2 observations for future intelligence work in Russia. This agent's name is Richard Savitt and his location is still Tokyo.

1 agent working in Florida who was in contact with Alex E. Carlson, employer (and possible CIA contact) for David Ferris. See P. 317. Also David F. Green and Kurt Schmitt see page 317 footnotes.

b) Tapes recorded interviews with New York Socialite Miss Shirley McKinley who was known to John Austin, had spent time on his ranch in Southern California, and who was present at a victory celebration party at the New York apartment of Roy Cohn, on November 22, 1963 for intimate friends.

NOTE: THERE ARE OTHER PERSONAL CONTACTS IN THE UNITED STATES WHO OFFERED INFORMATION OF A CONFIDENTIAL NATURE WHICH WERE NOT DIVULGED TO ME. THE INFORMATION WAS USUALLY RECEIVED IN FORM OF UNDATED NOTES.

NOTE: THE BOOK WAS WRITTEN BY ONE MAN, DESCRIBED AS NOT FAMOUS, NOT AN AIDE OF KENNEDY BUT AN ESTABLISHED AMERICAN WRITER.

NOTE: THE AUTHOR NAME "JAMES HEPBURN" is a pseudonym which was created by Mr. Lamarre because he has a passionate appreciation for Audrey Hepburn, the movie actress, with whom he had had an affair. In French "James Hepburn" means "I like Hepburn". Hence the name James Hepburn.

NOTE: The book was first written in English (Lamarre will reveal the name of the author in August after the book is published in the United States). Six assistants in France translated the book into French, Italian, and German.

Meeting with Representative of French Deuxieme Bureau

21, 1968 Club KAMA in the Latin Quarter of Paris  
Rue Dauphine..

On this date at approximately 11 PM I was picked up by Herve Lamarre introduced to the man he had spoken about as "Phillipe." Phillipe drove to Peugeot, license 349 T 95. He drove to the Club Kama speaking about unimportant things as we drove. I determined that Phillipe had just returned on a trip to New York and planned to go to the United States again in a "fort-night" which would be around the end of the first week of July. He would be going in Jose California to examine a new nuclear energy plant there evidently owned by General Electric Co. His specialization was energy which had previously concerned with the Oil industry and was now strategically changing its orientation to nuclear power. This change, Phillip explained later was due to French government's desire to get in on the beginning of the newest processes producing nuclear power, which they felt would replace all other forms of energy within twenty years. It was their feeling that the American Oil industry would begin to feel the effects of the change within ten years and that they would soon begin making moves to overtake the control of the nuclear energy production which is primarily owned by General Electric.

The French have been at the mercy of the American Oil Industry for many years and the Small Western European Oil companies are so dependant on the American economy that they are ~~struggling~~ struggling to maintain themselves. One thing is sure, the American Oil Industry, which earns approximately \$4,000,000 per day sets the prices for the rest of the world. Russia which has been steadily gaining their ability to produce oil has been profiting by the high level of the price which is caused entirely by the American Oil Industry.

Lamarre had told me that it was Phillipe who had been so instrumental in gathering information about the oil industry people involved in the plot against Kennedy although that was never really his mission and his cover was always in the field of Science related to the Oil Industry. At one time Phillipe had met with a man in Mexico who had been a part of the ambush group which murdered the President in Dealey Plaza. This side trip for Phillipe was directly connected with an attempt to gather information about the assassination although he had been in Mexico on other business. Phillipe had had this conference in a Hotel in Mexico city in approximately 1966.

Although Phillipe had never admitted to this meeting to me he did confirm in subtle terms, always being careful to qualify his statements as "his own personal opinions", that he was aware of the Hotel Luna, that it had been an important meeting place for the assassination and in 1963 it had certain residents who were Cuban. It is difficult to state things which are understood from this type of discussion in a positively factual way. I found that Phillipe did not want to tell things directly but that if an analogy or humorous metaphor were suggested as a vehicle for discussion purposes he would follow along carefully allowing certain new information to be known. He suggested that the hotel (LUNA) had a "Cuban Band" and after that the analogy became one of discussing ~~xxxx~~ musicians and "their instruments".

Phillipe could not be mistaken for an American as he speaks with a strong French accent and is European in appearance possibly with some German blood.

discussed the French government's plan to try and elevate ~~xxxx~~ their oil industry over the next ten years but indicated ~~xxxx~~ rights to produce nuclear ~~xxxx~~ and
